

Make a Splash

From poolside to lakeside, safety is the watchword while Bucky's on the scene. Drawing on his long aquatic experience (seventy-five years in Hoofers is worth something, you know), he's landed a summer job as a lifeguard. The pay isn't great, but, he reasons, the best place to meet the ladies is by the water.

Please note: The Bucky paper doll has not been certified by the U.S. Coast Guard as a safety device and should not be used as a substitute for a human lifeguard. It cannot swim, row, or operate a hovercraft. It is not trained in CPR or elementary first aid, and it is legally prohibited from dialing 9-1-1. Swimming in the presence of the Bucky paper doll is undertaken at the swimmer's own risk.
